# Barnesville, Georgia: Frustrated Fascist Yearns for Violence

On his [“Pax Americana” Youtube channel](#), white nationalist [Charles Bradley Tinsley](#) of Barnesville jokes about putting Jews in ovens, expounds his philosophy of “neo-fascism”, talks about his latest guns, and stews in hatred of leftists and people of color. Tinsley is an explicit white nationalist, working towards an all-white ethno-state. He claims that democracy has failed and that it is time for there to be “order and militarism” at the foundation of society. He often ends his rants with the Nazi salute of “Hail Victory,” on occasion adding “keep your guns loaded and your blades sharp.”

 Activity

Tinsley's now-deleted [@AFN\\_P Twitter account](#) initially used his real name

According to his broadcasts, Charles Tinsley studies electrical engineering at a local college. (He once vowed to drop out, but this never happened.) In a Discord chat server linked to “The American Nationalist” Youtube channel (a rebranding of “Surfing the Kali Yuga”) and TheThirdPosition website, Tinsley claimed that he would place posters for white power/fascist organizations the [Traditionalist Worker Party](#) (TWP) and [Patriot Front \(PF\)](#) on a local college campus. Based on [Tinsley’s location](#), we assume this to be [Gordon State College](#), not far from [Tinsley’s family home](#). Tinsley does not appear to be a formal member of the [PF](#) or the [\(now-unravelling\) TWP](#), although Tinsley clearly admires the activity of both organizations. ([PF and TWP do not have a history of mutual respect](#), an indication of Tinsley’s organizing acumen.)

More disturbing are Tinsley’s recurring bloody fantasies. Frustrated at Twitter and Facebook policies that led to bans on the platforms, Tinsley / “Not a FED” stated on the same Discord server that “somebody needs to take out the f \*\*\* k[\*\*]es running these God damn places and Fire Bomb the s[hit] out of the f\*\* Twitter and Facebook offices you start shooting motherfuckers [sic].”

11:42 AM **Not a FED** Yeah I agree cuz didn't the white wolf order have even more subscribers like you've had to be rebuilt from the ground up twice now if I'm not mistaken we really need a free speech bill passed or Free Speech bullet fired

11:46 AM **aglockfanboy** That's why I'm just focusing on Minds bc it's honestly not worth it being on YouTube anymore

11:46 AM **Not a FED** I think somebody needs to take out the f\*\*kies running these God damn places and Fire Bomb the s *out of the f\*\* Twitter and Facebook offices you start shooting motherfukers and you see how quick they realize I messed up messed up somewhere and see how quick that s\*\* changes* (edited)

12:02 PM **Surfing the Kali Yuga** Censoring us actually helps us. If we go off the internet, the only other way to get our messages out is to go into the streets. And they really don't want that.

12:03 PM **Not a FED** I know it helps us but I just to throw a Molotov at a Jew or Mark Zuckerberg already because I've been banned from talking to my family on Facebook and they live in Texas so it's kind of hard to talk to them. Plus all the waiting is killing me (edited)

12:05 PM **Surfing the Kali Yuga** Just make a sock account and get in contact with them.

12:10 PM **Not a FED** My family's weird about talking to people online I have to know who it is and it's not worth the hassle I know that's not Zuckerberg fault but Facebook shouldn't ban you over stupid s *like saying s* like this is why I'm a fascist

*Tinsley / “Not a FED” argues for violence on Discord*

Tinsley is not any more restrained on Youtube, where he operates [the “Pax Americana” channel](#). Speaking about “narrative–spinning” journalists who do not report on things Tinsley believes should be reported, Tinsley states “they should be hung in my opinion” (2/18/2018 broadcast).

Following the [February mass shooting at a Parkland, Florida high school](#), Tinsley lost his cool in a broadcast and stated that “I don’t give a fuck about this teenager [...] They need to shut the fuck up” in reference to Stoneman Douglas High School students speaking out after the [massacre](#) (who Tinsley believed were not giving others enough time to grieve by saying something.) Tinsley referred to survivors as “little teenagers that are indoctrinated by the system” and stated that there is no solution other than “let them get shot at” because “if you try to take preemptive measures they’ll call you a racist, they’ll call you some type of phobic, and they’ll bitch and cry.”

Tinsley believes that the alleged “destruction of the family unit” by the Left is the true cause of school shootings. We believe Tinsley’s words indicate an extremely volatile personality:

“You commie fucks are too weak to have a functioning society because someone’s feels [feelings] might get hurt [...] Everybody in this fuckin’ country will have to die before I give up my guns peacefully.”

A Youtube video by Tinsley posted mid-March displays an image for [the Atomwaffen Division, a neo-Nazi organization that has been linked to five murders in less than a year](#). Tinsley circulating Atomwaffen propaganda further suggests violent inclinations on his part, or at least a willingness to celebrate murder.

From what we have seen, Tinsley does not seem to be a particularly dynamic organizer for his cause. However, since Tinsley claims to be spreading propaganda for white power groups in his area and regularly issues disturbing fantasies about violence, we believe that those who live near him or attend college with him should

know what is going on. Feel free to [contact us](#) if you have more information on Charley Bradley Tinsley and his activity around Barnesville.
